LATERAL WATER HAZARDS

A "lateral water hazard" is a water hazard or part of a water hazard so situated that it is not possible or is impracticable to drop a ball behind the water hazard.

YOU HAVE 5 OPTIONS

1. Play the ball where it lies without penalty. 1
2. Drop a ball behind the hazard along a line formed by the hole and the point where the ball last entered the hazard (A), penalty one stroke. 2
3. Use the stroke and distance option by playing your next stroke from the spot where the original ball was struck, penalty one stroke. 3
4. Drop within 2 club-lengths of point A, no nearer the hole, one stroke penalty (yellow area left side of river). 4
5. Drop within 2 club-lengths of point B, no nearer the hole, one stroke penalty (yellow area right side of river). 5

LATERAL WATER HAZARDS ARE DEFINED BY RED STAKES OR LINES.
