

DIRECTIONS FOR FILLING OUT SCORE CARD ON WEEKLY TOURNAMENT DAYS (THURSDAYS)

- In first column, put the last names and first initial of the players in the foursome alphabetical by last names.
- Under Hcp. heading, put in Shorecliff's handicap number for each person.
- Next to the persons' names draw a line down and mark it "Chips" in the yellow. When a player gets a chip-in or chip-ins, insert the # of the hole the chip(s) was made.
- Under the corresponding hole, put the actual score. If that hole is not in the game of the day, the player can opt out of finishing the hole. Put their maximum strokes for that hole with an x next to the number. (this is called x-ing out). Maximum strokes vary by handicap. If your handicap is a 10-19, maximum strokes= 7; 20-29, maximum strokes= 8; 30-39 maximum strokes = 9; 40+ maximum strokes=10
- Subtotal 1-9 under column Out heading and 10 - 18 under column In heading and combine the total under Total heading.
- Under Adj (far right) adjust out any strokes that exceed the players' maximum stroke (defined in #4 above) and put in their adjusted score that should be posted into GHIN.
- There are different Games of the Day each week - figure out the total number of strokes in the games less the person's handicap or 1/2 handicap, whichever is specified. That number is the games number and should be put under the Initial heading (center of card).
- Scorer sign and date card and reviewer (who is the other scorer in the foursome) sign under Attest.
